

Chipmaster

Putsch® has over 140 years of experience in the preparation and processing of sugar beets. From its earliest days Putsch® has developed tools, machines and processes for sweetener and sugar production and the preparation of sugar beets.

Putsch® is specially positioned to offer innovative engineering and trusted expertise in the root vegetable processing industry and has over time developed experience in the preparation of Feed Beets.

The Putsch® Feed Beet product portfolio includes the following solutions and products:

- mobile Beetmaster and
- stationary Beetmaster for washing and destoning,
- Chipmaster and
- Chipmaster XL (PTO driven) for chipping.

The Putsch® Chipmaster is a result of collaborative efforts with customers creating a cost effective solution for chipping of Feed Beets. Its unique features enable the user to chip Feed Beets without the need to wash and destone beets depending on regional conditions.

The Chipmaster is very adaptable and compatible with most pay loader attachments and can be used to process a wide variety of root vegetables in addition to Feed Beets.

Optional Features:

- two different counter-knife designs available: one with a constant counter-knife for beets without rocks one with a movable counter-knife that can handle beets
- can be easily integrated with Putsch® Beetmaster to streamline beet cleaning and chipping
- units available for sale and rent

Technical Data

	Chipmaster 80	Chipmaster 100	Chipmaster 120
Width	83 in	114 in	142 in
Depth	69 in	82 in	108 in
Height	67 in	67 in	67 in
Cutting Drum Width	71 in	92 in	118 in
Empty Weight	2160 lbs	3000 lbs	4850 lbs
Chipping Capacity (depending on pay loader attachment)	80 t / hr	100 t / hr	120 t / hr

In order to better illustrate the technologies used, the machines and installations are partially pictured without the necessary safety systems. It is explicitly advised, thatall machinery and equipment is only permitted to be operated according to the operating manual.

Machines and installations pictured in this brochure are partially equipped with options available at additional costs Description and technical data according to knowledge available at time of printing.
